

TITANIUM STRENGTH ACQUA ROWER RESIDENTIAL USE

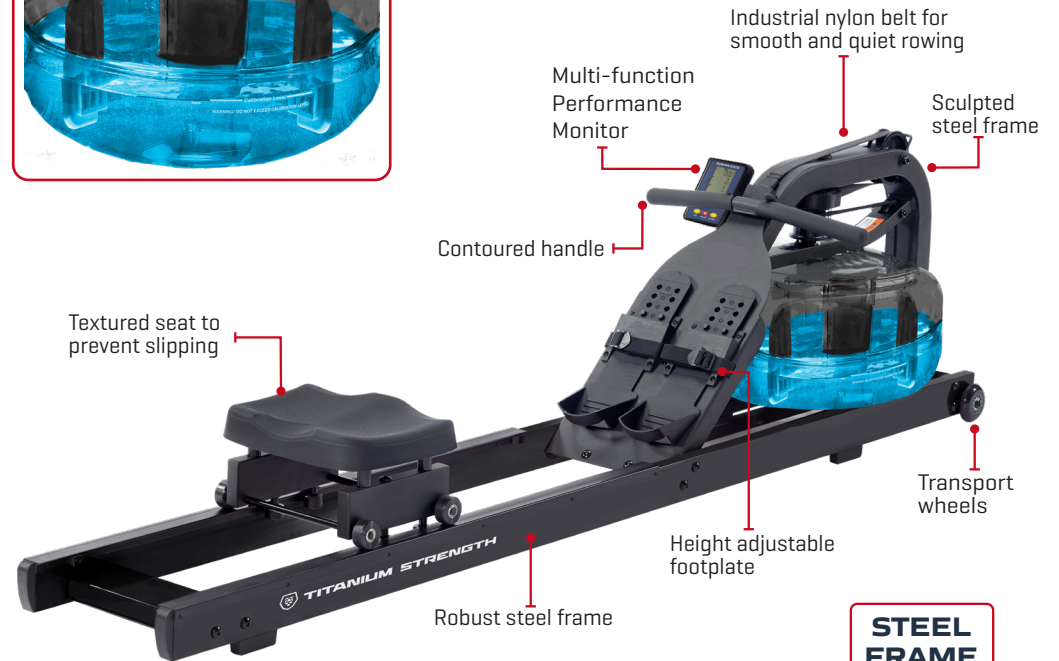

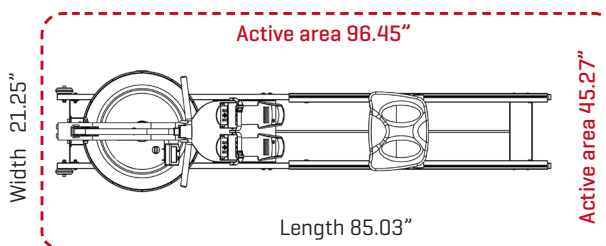

The **Titanium Strength Acqua Rower** is a fully featured rowing ergometer with the smoothness, strength and stability of full length, dual side rails. With a sculpted steel frame wrapped around the Fluid Resistance system, it delivers contemporary style and a perfectly stable rowing platform.

The **Acqua Rower** offers silky smooth fluid resistance at any speed with an immediate catch and consistent resistance through the entire stroke. Height adjustable footplates ensure perfect ergonomics while a deluxe, shaped and textured seat ensures a smooth and comfortable action with every stroke.

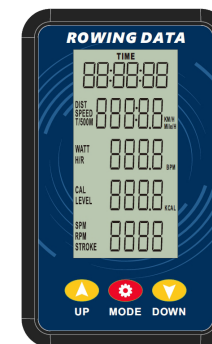

Transport wheels make the **Acqua Rower** easy to move and stow-away, standing vertically for compact storage. Every component is of the highest quality, to ensure perfect performance over many years in the home environment.

PRODUCT SPECIFICATIONS

FLUID RESISTANCE:	17 Liters of Fluid Resistance Tank
PRODUCT NET WEIGHT:	77.51lb
PRODUCT GROSS WEIGHT:	86.28lb
DIMENSIONS:	Length 85.03" x Width 21.25" x Height 20.47"
MIN ACTIVE AREA REQUIRED:	Length 96.45" x Width 45.27"
STORED VERTICAL DIMENSIONS:	Length 20.47" x Width 21.25" x Height 85.03"
MAX USER WEIGHT:	330lb
COMMERCIAL WARRANTY:	Frame 10 years - Fluid Tank 5 years Mechanical and non wearing components - 2 years

STORES VERTICAL WHEN NOT IN USE
